CONDITIONS OF SALE

COMMISSION

1. This is a floor auction, not a mail bid only auction, therefore a buyer's commission of 10% of the hammer (selling) price will be added, and becomes part of the total purchase price to be paid by the buyer.

BIDDING

2. All Bids are per lot, as numbered herein. We reserve the right to withdraw any lot prior to the sale, to divide a lot or to group two or more lots.
3. The highest bidder shall prevail. It is the sole right of the Auctioneer to settle any dispute between bidders, to offer for resale any lot under question and to regulate the bidding. The auctioneer also reserves the right to refuse any bid he believes not to have been made in good faith.
4. Persons unable to attend the sale may bid via the enclosed bid sheet or by telephone by using our WATS 800-221-7276. New York State residents may call 212-751-1900. We will be pleased to assist you in bidding, answer any questions regarding a lot, or give you more information on any lot(s).
5. Mail bidders wishing to check their bid standing may do so by phone. An opportunity to increase low bids will be provided prior to the closing deadline.

PAYMENT

6. Payment shall be in U.S. Funds. All bidders, floor or via mail or telephone shall pay for their lots in advance of delivery unless prior arrangements have been made. Successful mail bidders shall be notified of lots won and must remit prior to lots being shipped. A charge for postage, insurance and handling shall be added,* as well as appropriate New York State Sales Tax where applicable. Exemption Certificates must be on file with us prior to the sale. Receipt from a reputable carrier shall constitute delivery by us.
7. Title shall not pass until payment in full for won lots has been received. A late charge of 1½% per month shall be imposed on overdue payments.
8. Placing of a bid shall constitute an agreement between buyer and seller and acceptance of the foregoing terms.

GUARANTEES

9. All items offered in this catalogue are guaranteed as to attribution and weight. Lots on which description is incorrect according to the above, are returnable with advance permission from HRN. Disputed lots must be returned intact in their original containers, within 10 days of receipt. Lots are not returnable for any reason if:
 - a) You are a floor bidder, even if you did not view the lot.
 - b) You viewed the lot prior to the sale.
 - c) A photograph of the lot in question appears in the catalogue and clearly show any defect not noted in description.
 - d) You cannot afford the lot. Bids placed in an auction are legally binding. Please check your finances prior to bidding.
 - e) You simply do not like the lot even though the description is correct. An auction sale is NOT an approval sale and is NOT conditional.
 - f) More than thirty days has elapsed since the day of the sale.

A FEW TIPS ON BIDDING

May we suggest bids that make sense. Offering \$100 for a \$1000 item wastes only your time and ours. While it occasionally happens that a bargain can be obtained at auction, most items will sell for a price fairly close to their actual value. Please keep this in mind when bidding by mail. And, regardless of "lucky numbers" we would appreciate it if bids are not offered in odd amounts. Such bids will be automatically reduced to the lowest whole number. (\$102.34 become \$100.00).

*For an additional charge we will be happy to ship your lots via U.P.S. Blue Label (2 day service) or Overnight Express.

LARGE CENTS

Total of 130, together with 105 culls a few holed, smooth, edge-troubled, etc., but many perhaps salvageable. About 20 are Sheldon series. Total of over 235 pieces.

Two Pieces From Another Consignor

168. 1839 N-3 (R-2+) A scarce coin which evinces no wear, solid brown in color, a few areas of slight starting corrosion, tiny edge dent, etc., but still a beauty, and withal, makes Uncirculated. Ex-Chamberlin Sale, #55, where it brought \$325.00.

169. **1839 N-13 Booby Head** No wear apparent, many flow lines so must be a late state. Entire surface 'orange-peely', with some lighter areas behind 'ONE CENT'. Eye-catching beauty, should be seen. Ex-Chamberlin Sale, #57, where it brought \$1,200.00.

INDIAN CENTS

170. **1865 Brilliant PROOF** Full red with glistening surfaces, wire edge and minor flecks. Second in rarity to 1864. Only 500+ struck.
171. **1871** Deep chocolate-brown mint state example. Lack of brilliance keeps it from Choice.

172. **1878** Attractive red-brown **PROOF** example, few defects and lovely color upon close inspection.
173. **1882** Indigo Proof. Choice, but small spots on 'S' and '2'.

179. Three Indian Cents 1903, 1906 and 1909. All Choice with much original color.
180. Group of 1860s Indian Cents consisting of 1864 CN, 1865 and 1866 better than (VF), 2x 1864L (VF), 1864 bronze, 1864L, 1866, 1867 and 1869 better than Good, plus 1867, 2x1868 AG. Thirteen pieces.

Set is housed in Whitman binder. Also seven more Whitman folders of Lincolns in various stages of completion, of little consequence.

186. **1955 Doubled Die** Typical brown, Extra Fine.

187. **Monster Collection of Lincoln Cents**- What seems like a lifetime accumulation of the popular cent. Over 100 rolls, mixed and partial, plus many loose coins totalling over 75 lbs. At quick glance we discovered a roll of 1924's and a partial roll of 25's in BU. We're sure many other surprises abound.

TWO CENT PIECES

188. **1864 Small Motto** First year of the series and the scarcer variety in Extra Fine.

189. **1865 Brilliant PROOF** A blazing example of the type with most of the original red present. Some light oxidation surrounding reverse numeral '2', but definitely a Choice example.
190. **1866** Brownish BU example with 20% red showing through mostly on the reverse. Two minor spots also on the reverse.
191. **1867 Satiny Choice Uncirculated** with much lustre present under light brown toning. No significant defects.

192. **1872** Key date of the series and **lowest** mintage regular issue (65,000 struck). This offering **Choice BU** and **50% red**, but seems softly struck on the leaves. An attractive example of this sought after rarity.
193. Large Group of Circulated Two Cent Pieces - Assorted dates, graded as follows: 29xAG to Good, 8xVG, 6xFine, and 12xVF or better. Included are 1870 and 1871, about EF, the latter polished. Total of 55 pieces.

THREE CENT PIECES

NICKEL

194. 1880 (Fine), 1888 (VF) and 1889 (Fine, spots), all deeply toned. Three better dates.
195. 1866 Heavily streaked but BU, 1870 deeply toned but makes Mint State, and 1881 slider Uncirculated but has some tiny spots. Three pieces.

SILVER

196. 1851-O toned VF, 1853 toned EF and 1854 Type II EF. Three early pieces.
197. Four Type II Three Cent Silvers 1855 thru 1858 inclusive. All at least Very Fine.
198. 1859 First year of the third and final variety. Well struck with distinct clashmarks on both obverse and reverse, this piece should grade somewhat better than MS60.
199. 1860 Toned Uncirculated with disturbed surfaces, 1861 Choice EF, and 1862 beautifully toned AU with small obverse scratch from star to 'E' of AMERICA. Three nice pieces.
200. Group of Circulated Three Cent Pieces - In silver and nickel, 19 in silver average grade Fine though some bent plus 45 more in nickel, perhaps a bit nicer, worthy of inspection. Total of 64 coins.

SHIELD NICKELS

201. **1867** With rays. The transitional year and slightly **better than MS60**.
202. 1869 Also better than BU60 but with light oxidation present in the lower left $\frac{1}{3}$ of the obverse. Lustrous and desirable.

203. 1870 BU63/60 with noticeable diagonal die polish on obverse, weakness in shield center but attractive.
204. 1876 Deeply toned but still Uncirculated, numerous obverse die cracks, and 1883 Mint State 60+, small spot on shield. Two coins.

205. **1881** One of the **Key** dates with a total mintage of 72,375. **Semi-Proof-like** with a few reverse spots, otherwise better than MS60.

LIBERTY NICKELS

206. 1884 Choice BU but toned a dusky grey with hints of orange.

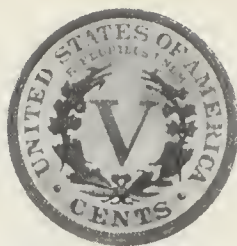

207. **1884 Brilliant PROOF** A **stunning example** with one small spot by the fourth star keeping it from Gem status. Noticeable doubling of the numeral one makes it as interesting as it is attractive.
208. 1885 Key date approaching Very Good.

209. **1886** Another **scarce date** in MS60. Diminished lustre and some light spots keep it from Choice.
210. 1887 Liberty Nickels, four, technically Mint State but darkly toned, one with traces of adhesive on the reverse. Proper care would surely enhance their appearance.

211. **1888** What appears to be a **PROOF** with the usual dull finish as described by Breen. Small stain by mouth but beginning to tone attractively.
212. 1889 Uncirculated, deeply toned and spotted, but numerous reverse spots, 1896 super slider, plus 1893 Mint State. Three pieces.

- 213. **1891 Brilliant PROOF** with a small thin vertical scratch on the cheek being the only noticeable defect.
- 214. **1894 Brilliant PROOF** with light obverse spotting and two heavier ones on reverse left wreath.

- 217. Lot of Circulated Liberty and Shield Nickels - Twenty-seven Libertys including 1887 and 1890 in EF, 1912S almost Fine, and a few nicer No Cent types. Also thirteen Shield nickels, many better than VF including 1866 Rays. Nice beginners lot. 39 pieces in all.

BUFFALO NICKELS

- 219. 1914 Toned BU60+, 1914D VF+ and 1914S Choice AU. Three coins.
- 220. 1914S Glossy toned Choice BU, minor spotting at lower obverse rim, tiny flecks at reverse.
- 221. 1915 Toned BU60+, 1915D BU60 speckling, and 1915S Fine. Three coins.
- 222. 1916S BU60+ some spots and 1916 similar but not as lustrous. Two coins.

- 223. **1918D 8 over 7** One of the 20th Centuries most sought after overdates, probably second in popularity to the 1942/1 Mercury Dime, and definitely scarcer. This example has full rims, bringing it close to Very Good.
- 224. 1926D BU but three green obverse spots, plus 1926 in similar condition. Two coins.
- 225. 1929 P.D.S. All BU60 or better. Some oxidation and a few light spots.

- 228. Group of Later Date BU Buffaloes - Includes 1934, '34D, '35, '35D, '35S, 2x'36, '36D, '36S, '37, '37D, '37S and '38D. Similar to the previous lot, perhaps not as nice. Also included: 2x1913 Type I toned Uncircled, 1918S (EF), another (VF), 1917D (EF) and 1923 (AU). Nineteen coins total.

229. Huge lot of Nickels - Includes six rolls of Buffaloes all circulated, five roll of circulated Wartimes, plus 45 mixed and partial rolls of Jeffersons. In addition, two full sets of BU Wartimes and three Jefferson sets, two complete, one partial, mostly BU.

300. 1850 BU60 or better with mottled blue and grey color.

301. **1864** A lustrous **Proof-like** example of this elusive little rarity. Heavy '4' reverse die-crack, etc. are among the diagnostics quoted by Breen for the business strike. At least MS63, this little Gem should inspire strong bidding among the cognoscenti.

302. **1865** A sparkling **PROOF** example of this low mintage date, (only 13,500 struck). Some light toning and a few hairlines qualify this as **PROOF 63**. Coinage of the Civil War period is always in great demand making this piece even more desirable.

303. **1867** Lowest mintage coin of the entire Seated Liberty Half Dime series! Only 8,625 coins of this date minted. This offering being one of the 625 pieces struck in **PROOF**. Lovely rainbow color serves to diminish the effect of some hairlines noticeable under strong magnification. A excellent choice for the type collector, specialist or investor.

THREE DOLLAR GOLD

From Other Consignors

511. \$2.50 Liberty Gold 1861 Lustrous and much better than MS60. An early date in Choice condition.
512. \$5.00 Liberty Gold 1901 MS60, would be Choice except for a few obverse nicks.

513. **\$5.00 Indian Gold 1909D MS60.**
514. **\$10.00 Liberty 1893** Lovely Proof-like piece with frosted portrait and mirror fields somewhat hairlined and marked. Just about BU60.
515. **\$10.00 Liberty 1907** Better than MS60 with surface interruption along cheek and neck, but very lustrous.

516. **1907 \$20.00 St. Gaudens High Relief Wire Edge Variety** A beautiful example of this always popular coin. A strong wire edge encircles both sides, this with a minimum of tiny bends. A removable tiny patch of something organic sits below the obverse stem, and a few small marks are noted under the glass. Nevertheless, must rate as **approaching 63 status**. A gorgeous coin.

517. **1907 \$20.00 St. Gaudens High Relief Wire Edge Variety** Another example of this popular variety, almost Uncirculated with no significant defects.

HALF EAGLES

LIBERTY HEAD TYPE

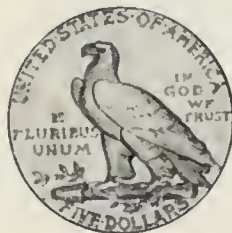

- 518. 1880 Very Fine, and 1880S almost Uncirculated.
- 519. 1880 BU60.
- 520. 1881 Very Fine and 1882 Extra Fine to AU.
- 521. 1885 and 1886 Both Extra Fine.

- 523. **1895** Mint State and almost as nice as the previous lot.
- 524. 1898 and 1902 Both Extra Fine to AU.

INDIAN HEAD TYPE

- 525. 1911 Choice Extra Fine.

- 526. **1915S** Extremely difficult to locate in Mint State as this piece is. Small reverse nicks behind eagles head and under second 'U' in UNUM. Lustrous and slightly **better than MS60**.

EAGLES

LIBERTY HEAD TYPE

530. 1899 Lovely Choice BU approaching 63 quality.

531. 1901 Beautiful and satiny Choice BU with a hint of toning over slightly Proof-like surfaces. A few abrasions on Liberty's back keep it from Gem status but definitely nicer than many we've seen.
532. 1901 Another, almost as nice but with a tiny nick over the upper lip. Lovely surfaces and lustre.
533. 1901 A final piece, also Choice BU.

534. 1907 Mint State and approaching Choice status.
535. 1907 Another BU example, unfortunately with some reeding marks across obverse.

INDIAN HEAD TYPE

536. 1907 No Periods - Choice Very Fine, scratch across face, too Bad!
537. 1909S Slightly better date but only just makes Very Fine.
538. 1910 Very Fine.

539. 1910D Gem BU example with no really noticeable defects to speak of. One tiny scrape to the left of date, mentioned for accuracy. A pleasing coin of common date, sure to satisfy the discriminating buyer.

- 540. 1910D Another that just makes Mint State.
- 541. 1910D A final piece, almost Uncirculated, small edge cut at 8 o'clock obverse.
- 542. **1911 MS60.**
- 543. 1911 Another Choice almost Uncirculated.
- 544. 1911D Slightly better date in Extra Fine.
- 545. 1911D Another Extra Fine but lightly polished.
- 546. 1914D Lustrous but baggy MS60. Lovely color and Choice reverse.
- 547. **1915 Sparkling BU** example, with strong mint lustre. Scratch over motto and left wing, but has much eye-appeal.

- 548. 1915 Another, superior to the previous, fewer marks, and just as flashy.

- 549. 1932 Satiny lustre and few abrasions characterize this common date BU piece. A fine choice for type.

DOUBLE EAGLES

- 550. 1874S Type II Extra Fine.
- 551. **1877CC** Low mintage piece (42,565 minted), in Very Fine.

- 552. **1907 St. Gaudens High Relief Roman Numerals Wire Large Variety.** Always in demand, this offering falls into the **Mint State** category. Some light hairlining and a tiny nick across Liberty's left knee keep this from a truly Choice classification. But its overall attractive appearance makes it quite desirable.

553. 1908 No motto, at least Choice BU63, typical strike.
 554. 1912 Almost Uncirculated-50.
 555. 1920 Better than MS60.

Property of Other Consignors

556. **Augustus Humbert. 1852 TEN DOLS. 884 THOUS;** An historic coin which shows some of its years, just about making Very Fine. Once part of the Rabson Collection, which was dispersed many years ago, later the property of Isidore Snyderman, an early ANA member active here in New York.

557. **United States Assay Office of Gold 1853 TWENTY DOLS. 884 THOUS.** A rare and famous example of pioneer coinage, and one of the scarcer \$20.00 pieces of this period. This coin grades **Choice Extra Fine** and has lovely light purple toning attesting to its originality. A little damage to the first three letters of 'UNITED' is the only defect beyond what one would normally expect of a piece with this history. **Extremely Rare** according to Breen, this coin would be a showpiece in any collection.

558. **\$1.00 Gold 1873 closed '3'.** What appears to be a **Choice PROOF** example, possibly a restrike, and **unlisted** in the major reference works. Exhibits **full mirror surfaces** and exceptional strike. Slight die bulge evident, and a thin vertical raised die line from ear to shoulder. An **extremely rare** coin whether a specimen or business strike with a total mintage of only 1,825 pieces. If a restrike, probably fewer than 10 pieces exist as most likely this was a companion piece to the following lot.

559. **\$3.00 1873 PROOF** closed '3, 'Dished' restrike. Exceedingly rare, Breen-6384, **6 - 8 known**. Shows the convexity and concavity described, also a weakness in strike particularly evident in the hair, indicative of the rusted dies used. Shows considerable hairlining and a few abrasions, but, in a coin this rare, such minor flawing must be discounted. According to our records, a similar piece in 'Auction '81 brought \$40,000.00, while the Eliasberg specimen went for \$30,800.00. An opportunity to own a major numismatic rarity that seldom appears at public auction or anywhere else.

560. **\$5.00 1807 Capped Draped Bust to Left**. An **extraordinary example** of this transitional year. The obverse is **Choice Mint State**, having superb surfaces not normally seen on coins of this type. Deep satiny lustre and good strike serve to enhance its appearance, though a small edge flatness at one o'clock is present but difficult to notice. Unfortunately the reverse of this piece shows signs of tampering. Slight toning obscures evidence of a previous cleaning, though all the detail remains. An opportunity to own one of the nicest early gold type coins we've seen (if you don't turn it over!)

561. **\$5.00 1812** (Breen-6465) Close '5 D'. A **very scarce** coin in superior condition and hard-to-find in any shape. Although records suggest that some 58,087 were minted, the date seldom shows up for sale. Having lovely rich **golden color**, this piece exhibits some light hairlining but no actual wear.

562. **\$5.00 1818** (Breen-6470), 'STATES OF' virtually one word. A **rare date** in very high grade, with strong die crack bisecting the obverse from edge through final '8', hair, ear-lobe, 'l' of LIBERTY and through star six to the edge. Shows flatness on high points which may be due to the cracked die, but has the appearance of a Mint State coin. Garrett's piece brought \$22,000.00.

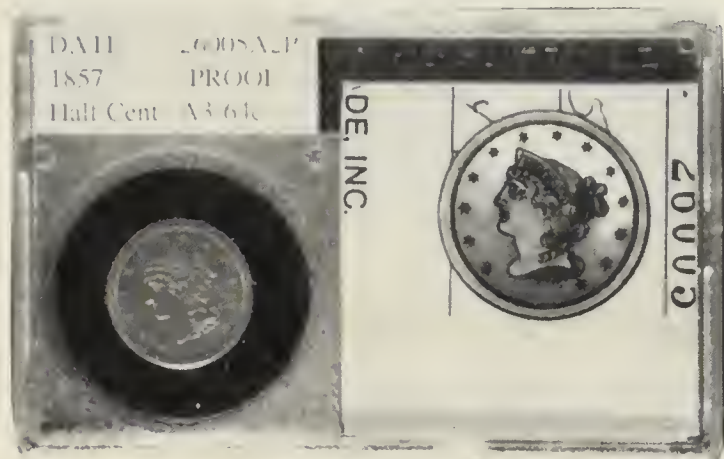

563. **\$10.00 1907 Indian** The rounded rim or 'Rolled Edge' variety, most of which (19,958) were melted by the mint leaving an **estimated 42 survivors**. **With periods** before and after 'UNITED STATES OF AMERICA', extremely rare and almost never offered. This coin is coarsely struck and appears to have been perhaps somewhat harshly cleaned at some time, now having toned a bit. A chance to acquire a great numismatic rarity, with previous specimens having brought from \$38,000.00 to \$60,000.00.

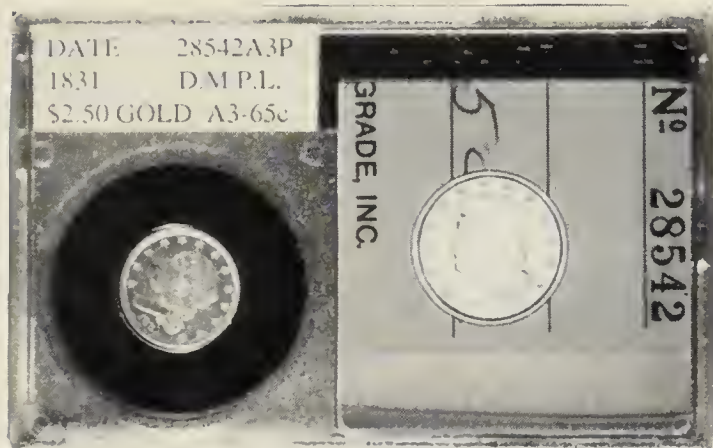

564. **\$20.00 1885** A great golden rarity of which only 12 - 15 surviving are business strikes. Having proof-like surfaces, the current offering is about Uncirculated with the usual minute marks typical for a coin of this size, and bears all the characteristics and diagnostics expected. This classic has brought as much as \$38,000.00 in Uncirculated. (Auction '79). Seldom offered for sale.

The following six lots are all in plastic 'slabs' having been graded by 'Accu-grade'. Each is numbered and photographed, and grading numbers cited are theirs, with which Harmer Rooke may or may not agree.

565. **Half-Cent 1857** A fully-struck brown **PROOF-64**. The 1857 half-cent in Proof is quite rare, as are all early copper proofs. Perhaps 30 are known, of which about 14 are unquestioned. The remainder could be restrikes, which are equally as rare as the so-called 'originals'. This is another rarity which is seldom offered and should bring well into four figures.
566. **Cent 1814 Classic Head** Accugraded at MS65, flat strike, even, smooth brown planchet, better than most seen, even though some bright spots are visible on the high points.

567. **\$2.50 1831 Capped Head** Graded **BU65**, only 4,520 of these were struck, with not many as nice as this piece. Gently frosted, innocent of toning, this little gem would be a welcome addition to the finest collection. Should fetch well into five figures.

568. **\$5.00 1798 Capped Bust** 13 star reverse. An early classic bearing an Accugrade of 62. Typical strike of the period, with two heavy reverse edge 'cuds' plus a couple of tiny edge nicks. A lovely coin with less than 25,000 struck of all three known types, well worthy of a healthy bid.

569. **\$5.00 1834 Classic Head Accugraded Proof-like BU63.** Somewhat flatly struck, as is usual with this type, and bearing a delicate **rose-colored** toning on both sides. Truly an eye-catcher which is not easily found these days.

570. **\$5.00 1847 No Motto, Accugrade BU63.** Although many were minted, not too many have survived in this high grade, most seen being Very Fine or below. This pretty little specimen has lovely color, but some softness in hair.

BARBER HALF DOLLARS

592. 1920 Approaching Choice BU with much lustre, and 1917 lightly toned MS60.

593. **1921D The Key Date** of this series with the lowest mintage (208,000). This example has some light hairlines and a thin scratch through the branch, but exhibits no actual wear. Crying out for MS60.

594. **1929S** Gorgeous **Choice BU** example with **strong lustre** and light original toning. Few defects bring this close to Gem Status.
595. 1934D BU60+, 1935 closer to MS63, and 1938 lightly toned BU63 or better. Three coins.

600. 1940P Subdued Gem BU, another more brilliant but not as nice, and 1940S BU60+. Three coins.
601. 1941P BU60, 1941D somewhat nicer, and 1942D subdued Gem BU. Three coins.
602. 1942 P.D.S. All three nearly Choice, the latter softly struck as commonly found.
603. 1943 P.D.S. Three Choice Uncirculated examples with the Mintmarked pieces nearing Gem quality.
604. 1944 and 1945 P.D.S. Six coins all MS60 or better, some approaching Choice condition.
605. 1945 Two pieces approaching MS63, and 1945D three pieces, possibly better. Five attractive Walkers.

613. **Lafayette Dollar 1900** Brilliant **Mint State** example approaching Choice status. A few small nicks on George's cheek prevents a higher grade but has strong lustre not normally found on this type.

- 636. Lincoln-Illinois 1918 MS60, hairlined.
- 637. Long Island 1936 Nicely toned obverse, reverse a bit brighter, with the usual tiny marks found on the sails. BU63.
- 638. **Maine 1920** Very slight toning on the obverse, reverse quite bright, pretty BU63.
- 639. Maryland 1934 Unevenly toned MS60+.

- 640. **Norfolk 1936** Nice coin with no discernable detractions, easily a BU63, some might see it better.
- 641. Oregon Trail 1934D Delicately toned BU60+.

- 642. Oregon Trail 1936S Nice toning, a lovely piece of subdued beauty, BU63, perhaps even nicer.
- 643. Another, this piece brighter than above, but with a small dig on the Indian's leg, still should make a BU63.
- 644. Pilgrim 1920 Slightly toned, reverse brighter, a few scattered tiny marks but still BU63.

653. Group of Six Pieces: Columbian 1892, just shy of Uncirculated; Lexington-Concord duskily-toned, beneath a 63, maybe better; Sesquicentennial, just about a 60; Stone Mountain, another that just makes Uncirculated; B.T. Washington and Washington-Carver, both BU60.

654. **Louisiana Purchase McKinley Gold Dollar 1903** on original card as illustrated in Breen, Pg. 583, #7427. One of the first 100 struck, this appears to be a bright Proof under the 1903 mica (?) covering. A few copper spots leaching through on both sides only serve to enhance the beauty of this great rarity. The cardboard mount is signed by Rhine R. Freed, Chief Coiner and John Landis, Sup't. of the Mint. Mount shows some chipping around the edges as well as a line where it was probably once framed. The wax seal is virtually gone although a few chips accompany the offering. Our consignor states that the piece was purchased by his grandfather at the exposition in 1903.

655. **Panama-Pacific \$2.50 Gold 1915S** A nice little piece always in demand, this one just misses Uncirculated status on careful examination. Nevertheless, a nice coin.

From Other Consignors
EARLY HALF DOLLARS

656. **1807 Draped Bust Half Dollar.** A **spectacular example** of the last year of this type. Technically some light friction noticeable under magnification, but **incredibly proof-like** obverse fields command the viewers attention. Seemingly a specimen strike and will attract spirited bidding.

659. **1884 The Lowest Mintage Date of the Entire Seated Liberty Series** in an extraordinary state of preservation. 805. **1893-O** A decent strike for the date and a minimum of bagmarks put this piece in the **Choice Mint State** category. Lightly toned with much eye-appeal, this coin is extremely rare in high grade and will certainly attract much bidding. Traces of proof-like surfaces remain on the reverse, and the obverse has golden color around its periphery. A desirable specimen for the Silver Dollar specialist or knowledgeable investor.

806. **1893S** One of the **Key Dates** of the Morgan Dollar series with the lowest mintage intended for release into general circulation. Of the 100,000 pieces struck, most come in low grade. Our offering is a pleasing in grade **Extra Fine**. Some lustre remains and light natural toning doesn't diminish its appearance. An opportunity for someone to fill that empty slot.

807. **1893CC** Choice Extra Fine but unfortunately has some diagonal slashes across the obverse, and **1893P** solid Extra Fine. Two coins.

808. **1894** Just Extra Fine with some light golden color.

809. Another, this closer to AU. Brilliant, but has small gash across nose tip.

810. **1894S** Gorgeous **Mint State** Example of this better date. Probably BU65 by many standards with pretty brown-gold peripheral tone on the obverse, and deeper all over the back. Some tiny reeding marks are noticeable on the cheek upon close inspection but it's difficult to imagine many nicer specimens surviving.

811. **1895S** Slider Uncirculated but some may call it Mint State. Reverse toning over semi-proof-like surfaces.
812. 1895-O and 1894-O Both Choice Extra Fine.
813. 1896P Lightly toned BU64, another brilliant and almost as nice, and 1896-O almost Uncirculated. Three attractive coins.
814. **1896-O** At least **MS60** and the reverse even better. Always difficult in high grade.

815. **1896S** Beautiful satiny **Choice BU** with attractive color mostly on the reverse. Well struck and quite lustrous.
816. 1897S Toned slider, 1898-O two pieces almost Choice BU, 1899P AU50, and 1899-O toned and much better than MS60. Five pleasing Morgan Dollars.
817. 1898S Striking Mint State example with full lustre and fabulous reverse color. Easily Choice BU and very eye-catching.
818. **1899S** Extraordinary **Proof-Like** example which easily falls into the **Gem** category. Beautiful rainbow reverse and superb strike add to its appearance. May be the nicest Dollar offered at this sale.
819. 1900S Approaching Choice Mint State and lightly toned.

- 820. **1901P MS60** or better with deep colorful reverse toning. Extremely difficult to locate in Mint State, this piece will command much attention.
- 821. **1901S** Satin surfaces and **sharp strike** enhance this **Mint State** example. A scratch on the eagles breast hardly mars the overall beauty of this coin. Probably qualifies for Gem classification.
- 822. **1902S** Similar in quality to the previous lot, this example has exquisite reverse **rainbow toning**. A brilliant obverse with slight proof-like quality and a minimum of imperfections help bring it into the **Gem** category.
- 823. 1902 BU60+ toned reverse, 1902-O lightly toned MS64, and another brilliant and better than MS60. Three coins.
- 824. **1903** Beautiful **Choice BU** example with light original color, deeper on the reverse. Late date Morgans in this condition are few and far between.
- 825. 1903-O A key date and lustrous example better than MS60, and well struck.
- 826. Another, with satiny surfaces and almost as nice.
- 827. 1904P lightly toned MS60+ and 1904-O four pieces, almost Choice BU, two even better. Five coins.
- 828. **1904S** Blazing **proof-like example**, technically Uncirculated, but may have been dipped long ago. Delicate reverse toning and Choice in appearance.
- 829. Trio of Government 'CC' Dollars - 1880CC, 1881CC and 1882CC at BU60 or better.
- 830. Three More 'CC' Dollars - In government boxes: 1883CC, 1884CC, and 1885CC, same as previous.

831. Large Lot of Circulated Morgan Dollars - 230 pieces mostly pre-'21s grading from VG to VF, some making Extra Fine. At first glance we found 1890CC and 1903S. Worthy of close inspection.

- 832. Lot of Better Quality Circulated Morgans - 54 coins of which 43 pieces are Extra Fine and the remainder almost Uncirculated. Only two '21s in the lot.
- 833. Seven Uncirculated Morgans - 4x1880P, 1882-O, 1898P, and 1900. All MS60.

- 836. Another, softly struck but of overall nicer quality. Lovely satin surfaces and no major defects to speak of.
- 837. 1921 A final piece and would be the nicest offered except for a thin scratch across ear. Lovely lustre and eye-appeal.
- 838. 1922D Lightly toned MS60, 1922S a little nicer, 1923D like the first, and 1923S BU60+. Four coins.
- 839. 1923S Lustrous Choice BU with satin surfaces and deeply toned reverse, and 1924S almost as nice but having some reverse abrasions.
- 840. 1925 Close to Choice BU, 1926 similar, another 1926 more lustrous with pretty golden color, and 1927 blazing BU62 or better. Four attractive Peace Dollars.
- 841. 1927D Pleasing BU closely approaching MS63, pretty color and 1927S lightly toned and better than MS60.
- 842. 1928 Always in demand, steely looking MS60+, plus two more, one toned EF+, the other cleaned VF.
- 843. 1934S Choice Extra Fine but softly struck, 1934P BU60+, another, slider Uncirculated, and 1934D MS60. Four coins.
- 844. 1935S Three coins all lustrous BU but not quite Choice.
- 845. Half Roll (10 pieces) Mixed BU Peace Dollars - 1922 thru 1925 all attractive, particularly one of the 1924s.
- 846. Lot of Circulated Peace Dollars - 59 coins from Fine to almost Uncirculated, one with loop, also included 30 Clad Ikes and 21 S.B.A's.

854. **1856 HALF DIME** In similar condition to the previous but toned a lovely shade of blue. Interesting die lump in 'D' of DIME.
855. **1884 and 1896 LIBERTY NICKELS** - Both Choice PROOF, the latter lightly toned with a planchet flaw in front of nose.
856. **1905 LIBERTY NICKEL** Choice BU and a BU 1927 Buffalo approaching Gem condition.
857. **1890 Seated Dime** toned MS60, **1906 Barber Dime** lightly toned Choice BU, and another 1915 similar but more deeply toned. Three coins.
